

Opening files/resources set by teachers (SMHW)

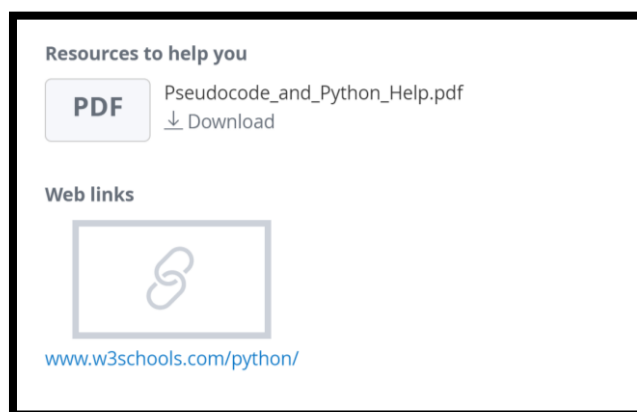

NOTE: You can only open attached files and links if your teacher has added them when they have set the homework.

Step 1

Log into your show my homework account and click on the work you have been set.

Step 2

Scroll down the page to the very bottom of the homework. If your teacher has attached any extra file for you to use or any useful websites they will be here.

Step 3

To open these resources you can either click "Download" for any files your teacher has sent you or just click on the website link to open the webpage.

If you have been sent a Microsoft Word document and you do not have Microsoft Word installed on your computer, you will need to download the file onto your computer as normal and open using your Office 365 account (see Using Office 365 Apps guide for using this).

If you have any further issues submitting work via SMHW, please email your teacher for more advice.
